- Site Construction Permit(s) required from the City Public Works Engineering prior to the start of any grading, excavation/fill or other related construction work.
 - Site Construction Permit(s) may be required for this site. Undetermined from the information provided. Please check with City Public Works Engineering prior to the start of any work at this location.
 - Site Construction Permit(s) not required.
- Other Comments/Conditions: _____

PLANNING Other Comments/Conditions:

- All setbacks are to be measured from property lines. It is your responsibility to accurately reflect setbacks from actual property lines. The City strongly recommends hiring a licensed surveyor to locate property lines.
- All areas used for off-street parking and maneuvering of vehicles including driveways shall have either concrete or asphalt surfaces. Driveway width is limited to four feet in excess of the opening of garage doors or carports.
- This approval is a City Planning land use approval only. This is NOT a building permit. It is your responsibility to obtain any required building permits from the Klamath County Building Department prior to commencement of construction. This paperwork together with your building permit application must be submitted to the Building Dept.in the Government Center at 305 Main Street.
