## **FOR IMMEDIATE RELEASE**

**Klamath Falls, January 14, 2025-** The Klamath Falls Police Department (KFPD) is proud to announce the formation of its Community Livability Team, a new initiative dedicated to enhancing the quality of life across Klamath Falls. Led by full-time Police Officer Terry Amos and Lead Community Service Officer Stephanie Myers, this focused team is tackling a variety of pressing issues impacting our community.

From addressing public drinking, disorderly conduct, and illegal camping to preventing theft, drug violations, and outdoor burning offenses, the team's mission is broad yet focused. Through a combination of enforcement, resource connections for those experiencing homelessness, and fostering community partnerships, the team is working proactively to identify and implement sustainable solutions.

Jonathan Teichert, City Manager, says that "The Community Livability Team is a reflection of our City's commitment to addressing challenges head-on and fostering a safe, welcoming environment for all residents and visitors. By combining enforcement with community partnerships and resource connections, we're taking a proactive approach to building a stronger, more resilient Klamath Falls."

By collaborating with local organizations, the KFPD's Community Livability Team aims to create long-term positive changes that benefit everyone in Klamath Falls.
