

City of Klamath Falls

Position Description

Position: Streets & Equipment Supervisor	Group: Management/non-represented
Department/Div.: Public Works/Streets & Equipment	FLSA: Exempt
Evaluated by: Streets & Equipment Manager	Salary Grade: 124

Summary

Supervises, assigns, reviews and participates in the work of staff responsible for providing street maintenance and fleet services. Emphasis on assignment and scheduling of duties and ensuring that activities are carried out to meet the objectives of the division. This position regularly inspects work sites to determine whether benchmarks have been achieved and troubleshoots special problems in the field and on projects. Performs other related duties as assigned.

Distinguishing Career Features

This is the senior position leading and performing street maintenance and repair, and fleet services. Advancement to this level requires experience with street maintenance, signs and striping and construction maintenance operations.

Essential Duties and Responsibilities

- Directs, supervises, plans and coordinates the work of individuals and crews engaged in the maintenance, repair and construction of City streets, e.g., street grading, asphalt patching, traffic marking and painting, snow and ice removal, sign installation and maintenance, traffic safety, etc.
- Issues work orders and dispatches individuals and crews and equipment as necessary to meet work priorities.
- Helps to create, review, and approve traffic control plans for City staff, contractors, event organizers, for activities within the City Right of Way.
- Issues site construction permits and monitors work for in-house contracted projects.
- Responds to and investigates accidents and near-miss incidents within the Streets & Equipment Division.
- Coordinates cost and scheduling tasks to ensure that project schedules and costs are consistent and within established division budget.
- Inspects City streets to determine maintenance schedules and procedures.

- Ensures divisional compliance with local, state, and federal safety regulations and procedures, to include, an understanding and use of the Manual on Uniform Traffic Control Devices (MUTCD).
- Reads/interprets work orders, blueprints, diagrams, and site plans; prepares estimate of work materials and costs.
- Estimates and maintains vehicles, materials, supplies, tools and equipment.
- Writes work reports, time reports, material usage reports and general correspondence.
- Assists the Streets & Equipment Manager in developing and monitoring the divisional budget, e.g., street materials, supplies, and fleet.
- Responsible for the development and management of the City's Pavement Management System (PMS).
- Investigates and responds to complaints and contract disputes.
- Responsible for the inspection and quality control of in-house and contractor support pertaining to street construction.
- Coordinates and assists in the hiring of contractor support for street operations – snow removal, asphalt, rock, etc.
- Represents the division during design and final inspection of all street construction projects managed out of the City capital projects plan, development review group, and State transportation improvement programs.
- Performs street construction, maintenance, and repairs to City streets.
- Represents the Streets & Equipment Manager in meetings.
- Participates in and coordinates emergency preparedness and incident training.
- Supervises Streets & Equipment division staff.
- Carries out supervisory responsibilities in accordance with City policies and applicable laws.
- Assists Streets & Equipment Manager in evaluating performance, addressing complaints, and resolving issues within the division.
