Re: City Parks Use and Reservations

PRESS RELEASE

FOR IMMEDIATE RELEASE

Our City parks system is thriving and becoming more popular every year. We are proud to see a growth in use of park facilities for a variety of events from small family picnics to large community events. With the increase in popularity we want to reach out and let people know that reservations are available for several City parks areas and some dates are in high demand. When not already reserved, park facilities are open to and encouraged for public recreational use for groups of less than 150 persons on a first come basis. For your event success it is more important than ever for you to schedule your event as far in advance as possible if you wish to reserve an area in one of the City parks. Reservation and Special Events applications and additional information is available at <http://ci.klamath-falls.or.us/visitors/parks-1>.
