**Developer Pre-installed Services:**

Water Meter "Drop-in" Fee	\$ 225.00
Water System Development Charge	2,485.00

**TOTAL: \$ 2,710.00**

**ADDITIONAL FEES AND CHARGES**

[Transportation System Development Charges, Traffic Mitigation Fees, Recapture Agreements or review fees]

- Applicant may be subject to additional fees not included on this form based on property location or subdivision.
- Please consult City utility maps for information on affected properties.
- City review must be conducted prior to final verification of any fees and charges.

- Meter installation cost is for City installed service line and meter box, which includes routine boring. Costs resulting from pavement or concrete replacement, or landscape reconstruction are in addition to the listed standard charges and will be billed to the applicant at cost, plus a 15% administrative fee [Klamath Falls City Code Resolution No. 02-37].
- Meter "Drop-in" fee applies only to services pre-installed by developer during construction of a qualified subdivision or development. City installed services do not qualify.
- Meters are placed in the public right-of-way; developer/property owner is responsible for determining meter size, constructing private water lines and for connection to meter. Legal access from the water meter to building is property owner responsibility.
- Please allow 3 weeks for meter installation after City's receipt of proper documents and fees.
- **Inside City applicants** contact City Planning for Residential Review before applying for City utility services. Verification of SDCs and meter installation fees will be determined by the Engineering office as part of the review process.
- **Outside City applicants** need valid address as assigned by County Public Works. Building Permit or Conditional Use Permit is required prior to applying for City utility services. Annexation Agreement or Consent to Annexation required prior to receiving water or sewer service. Applicants should check with County Public Works for any street cut restrictions.
- **City sewer:** developer/property owner is responsible for constructing the sewer service lateral from the structure to either the service lateral at the property line or to the City main line; this may include installing a cleanout at the property line per City Engineering Standards.
- Previously developed lots may fall under a different fee schedule if property has had qualified active City utility services within the previous ten years [Klamath Falls City Code section 3.560]. Contact office for more information.
