

The City of Klamath Falls produces Exceptional Quality Compost (biosolids). The biosolids may be used on indoor and outdoor ornamental plants, shrubs, trees, home gardens and lawns, and high public contact areas without restricting public access. EQ Compost may be land applied to sites used for the cultivation of fresh market fruits and vegetables. The compost is tested regularly to maintain the EQ standard.

Compost is loaded and given away at no charge to the public on most Fridays. For availability please call 541-891-9020 on Thursdays. The Compost Facility is located at 1200 S. Spring Street, Klamath Falls.
